County of Los Angeles

Los Angeles, CA 90012

Dear Supervisors:

**HIGHWAYS-THROUGH-CITIES
FLOMAR DRIVE FROM MEMPHIS AVENUE TO LA FORGE STREET
CITY OF WHITTIER-RESOLUTION NO. 3889
FLOMAR DRAIN
CITY-COUNTY COOPERATIVE AGREEMENT
SUPERVISORIAL DISTRICT 4
4 VOTES**

IT IS RECOMMENDED THAT YOUR BOARD:

1. In conjunction with the provisions of the agreement between the City of Whittier and the County of Los Angeles, to be approved concurrently with this Resolution, adopt the enclosed Resolution finding that the proposed drainage improvements of Flomar Drive between the aforementioned limits, within the City of Whittier, are of general County interest and providing that County-aid shall be extended to the City of Whittier in the amount of \$425,000 from the Road Fund for this purpose. This action will have no impact on the County General Fund.
2. Acting on your own behalf and also as governing body of the Los Angeles County Flood Control District (District), approve and instruct the Chair of the Board to sign the agreement between the City of Whittier and the County of Los Angeles, which establishes the City's responsibility to design and construct Flomar Drain. It also provides for the County to finance City support costs up to a maximum amount of \$95,000 and the construction contract costs up to a maximum amount of \$405,000. The total County contribution is up to a maximum of \$500,000. The City will

finance the total project costs in excess of County contribution. The County's contribution of \$425,000 is included in the Fiscal Year 2004-05 Road Fund, and \$75,000 is available from the Fiscal Year 2004-05 Flood Control District Fund Budget.

3. Delegate authority to the Interim Director of Public Works to accept the drain for operation and maintenance upon completion of the drain to the District's sole and complete satisfaction.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

Public Works proposes to financially participate in the construction of Flomar Drain in the City of Whittier. The primary purpose of Flomar Drain is to upgrade an existing road culvert and improve street drainage along Flomar Drive. Road funds are expended for that portion of the project that alleviates the street flooding. The City will perform preliminary engineering, right-of-way acquisition, utility relocations, and construction administration. The County will finance the City support costs up to a maximum amount of \$95,000 and the construction contract costs up to a maximum amount of \$405,000. The City will finance all costs in excess of County's contributions.

Your Board's adoption of the enclosed Resolution will authorize the expenditure of County Highways-Through-Cities funds in the City of Whittier for the portion within the City streets. Sections 1686 of the California Streets and Highways Code provides that the improvement and maintenance of all city streets is of general county interest. The board of supervisors of any county may, by a resolution adopted by a four-fifths vote of its members, determine that county aid shall be extended for the improvement or maintenance of streets within a city or extending along or across the boundary of a city.

Your Board's approval of the enclosed agreement is necessary for the delegation of responsibilities and the cooperative finance of the project. Your Board's delegation of authority is necessary for the Interim Director of Public Works to accept the drain for operation and maintenance.

Implementation of Strategic Plan Goals

This action is consistent with the County's Strategic Plan Goal of Organizational Effectiveness by utilizing a collaborative effort to expedite completion of the project. It also satisfies the goal of Service Excellence by providing assistance to the City in funding this project, which will alleviate flooding and increase pedestrian and vehicular safety throughout the project area.

FISCAL IMPACT/FINANCING

The County contribution for the proposed project is up to a maximum amount of \$95,000 for the City support costs and up to a maximum amount of \$405,000 for the construction contract costs. Public Works will deposit \$95,000 with the City of Whittier upon the full execution of this Agreement. Prior to advertisement of the project for construction bids, Public Works will deposit \$405,000 with the City. The County's contribution of \$425,000 is included in the Fiscal Year 2004-05 Road Fund budget and \$75,000 is available from the Fiscal Year 2004-05 Flood Control District Fund budget. There is no impact on the County General Fund.

FACT AND PROVISIONS/LEGAL REQUIREMENTS

The agreement has been reviewed and approved as to form by County Counsel. This agreement was executed by the City of Whittier on December 15, 2004.

ENVIRONMENTAL DOCUMENTATION

A Negative Declaration for this project was prepared by the County and adopted by your Board on September 4, 2001, Synopsis No. 77. The City of Whittier has concurred with the Negative Declaration on December 14, 2004.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

This project will not have a significant impact on current flood control services or projects currently planned. Upon construction completion to the satisfaction of the Los Angeles County Flood Control District, the District will be responsible for future operation, maintenance, and repair of the drain.
